Rogers Elementary 2999 Ridgemont Ave	San Jose, California	Ruth Su	all	Career Speaker	We would like someone who may have come from a underprivileged background that may be able to speak Spanish. We would appreciate one or some of these: pictures or diagrams, models to see, a hands on activity, or simple experiment that demonstrates a core engineering concept. If they could share their educational experiences, that would be meaningful as well. Thank you!	2	40
SANTEE ELEMENTARY 1315 AUDUBON DR.	SAN JOSE, CA	Kelly Maeda	Multiple	Give an hour lecture	I am interested in having an engineer speak to my class about their career, and university they attended. I would prefer someone who comes from a disadvantaged background, possibly speaks Spanish, but not necessary. I would really appreciate a hands-on activity to demonstrate engineering concepts to the students. Also, I would like for the engineer to express the importance of math, science, and writing in the field. Please let me know if there is anything I can do to prepare the kids prior to the visit. Thank you.	3	26
